Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

Botany In A Day Thomas

Botany in a Day is changing the way people learn about plants. A one-day tutorial introduces eight of the world's most common plant families, applicable to more than 45,000 species of plants. Master these eight patterns and have the skills to recognize an astonishing number of plants on any continent.

Botany in a Day: The Patterns Method of Plant ...

Botany in a Day is really a gross misnomer. This book is clear and well-written but it really takes some concentrated study to absorb all the information. It starts with the evolution of plants from spore plants, to vascular plants with spores, to plants with seeds then monocots and dicots and now I forgot what else.
