**Best High-End 4K TVs 2020: Ultimate Picture Quality - IGN**  
8K resolution refers to an image or display resolution with a width of approximately 8000 pixels. 8K UHD ( 7680 x 4320) is the highest resolution defined in the Rec. 2020 ( UHDTV) standard. 8K display resolution is the successor to 4K resolution. TV manufacturers pushed to make 4K a new standard by 2017. At CES 2019, the first 8K TVs were unveiled.

### 8K resolution

Because the resolution of 8K TVs is so high, you can go for some truly large screens, like 80-inches and up, before you can start discerning the individual pixels on a display.
