HP 48SX Calculator & Soft Case & Quick Reference Guide ...

As the model number suggests, the HP-48SX combined the general expansibility, flexibility and form factor of the HP-41C with the advanced math and programing features of the HP-28C/S and added new features of its own. To understand the HP-48S/SX, the reader should first visit the RPL page. Many of the HP-48's functions are described there.

HP-48S/SX

The HP 48 is a series of graphing calculators using Reverse Polish Notation and the RPL programming language, designed and produced by Hewlett-Packard from 1990 until 2003. The series includes the HP 48S, HP 48SX, HP 48G, HP 48GX, and HP 48G+, the G models being expanded and improved versions of the S models. The models with an X suffix are expandable via special RAM and ROM cards. In particular, the GX models have more onboard memory than the G models. The G+ models have more ...

HP 48 series - Wikipedia

The basic design and layout of the 48 series was also used for the HP38G, and then augmented to produce the HP49G, HP39G and HP40G. In addition to software changes between the models, the main difference between the 48/38 series and the 49/39/40 machines is the keyboard: the 48/38 machines having a "traditional" HP quality keyboard; the newer models having rubber keys.
