Imperialism is capitalism at that stage of development at which the dominance of monopolies and finance capital is established; in which the export of capital has acquired pronounced importance; in which the division of the world among the international trusts has begun; in which the divi-

## **Lenin, Imperialism, and the Stages of Capitalist Development**

While the political struggles may have changed over the decades, the focus on class, capitalism and imperialism has endured. JCA's authors have given attention to class analysis and the development of capital, along with peasants and agriculture and workers and unions. In recent years, the focus has shifted to Asia's location in globe-girdling capitalist value chains and the ways in which value has been extracted.

Dependent Capitalist Development in Latin America. The theory of imperialist capitalism, as is well known, has so far attained its most significant treatment in Lenin's works. This is not only because Lenin attempts to explain transformations of the capitalist economies that occurred during the last decade of the 19th century and the first decade of the 20th, but mainly because of the political and historical implications contained in his interpretations.
